Tamimi Academy

## Bone Splitting & Sinus Lifting Techniques, Inferior Alveolar Nerve Transpositioning, GBR

🕒 Friday, 15 November 2019 / 8:00 AM – 6:00 PM

🏠 Fairfield by Marriott, Lucknow

**Speaker:** Prof. Dr. Mazen Tamimi (BDS, MSc, PhD)

*Oral & Maxillofacial Surgeon*

*Member of Scientific Advisory Board of the IMC / University of  
Duisburg - Essen (Germany)*

*Visiting Professor at Cairo University (Egypt)*

*President of Tamimi Academy*

**Speaker:** Prof. Dr. Horia Barbu (DMD, MD, PhD, MSc)

*Head, Oral Surgery and Implantology Department*

*Dean Faculty of Dental Medicine*

*Titu Maiorescu University*

*Bucharest, Romania*

### Description:

This is an intensive advanced course for special techniques in Implantology where severely atrophied Maxilla and Mandible whether in width and height are discussed. Two different famous surgeons will discuss different approaches for Augmentation of the Jaws.

### Objectives:

- Indicate proper treatment plan for severely atrophied Mandible cases prior implant placement.
- Compare the different alternative surgical techniques to augment the mandible.
- Apply the Nerve Transpositioning procedures step by step.
- To learn to identify the indications of lateral Sinus Lift Techniques.
- To learn when and how to place implants with sinus lift in atrophied maxilla while there is no crestal bone available.
- To learn to use new techniques in stabilizing the implant in severely atrophied maxilla in order to avoid two stage sinus lifting.
- To learn how to place implants in a very thin bone in one-Stage surgery by splitting Techniques.
- To learn how to use a tenting screw procedure and identify the Advantages and Disadvantages of this technique.
- To know how to gain bone height and width by different block grafts
- To learn how to create more keratinized tissue around the augmentation side.
- To learn how to deal with the complications that might arise from the soft tissue management, augmentation and tenting screws

**Target Audience:** General Dentists, Oral and Maxillofacial Surgeons, Prosthodontists, Periodontist

**Teaching Methods:** Lectures, Participation

**Registration and Cancellation Policy: Fees: 3000 Rs**

Participants are eligible for a full refund if we receive a course cancellation at least 35 Days in advance to the start of the course, 50% refund if cancelled 14 Days prior the course, non-refundable if cancelled 48 hours prior the course.

Time	Title	
7:30 – 8:00	Registration	
8:00 – 9:00	Prof. Dr. Mazen Tamimi	Bone Splitting Techniques
9:00 – 10:00		All around sinus
10:00 – 12:00		Inferior Alveolar Nerve Transpositioning
12:00 – 12:15	Coffee Break	
12:15 – 14:15	Prof. Dr. Horia Barbu	GBR in Oral Implantology (Tenting screws, sticky Bone, Soft Tissue surgery)
14:15 – 15:15	Lunch Break	
15:15– 16:15	Prof. Dr. Horia Barbu	Bone blocks in Oral Implantology: Different type of bone blocks, soft tissue management)
16:15 – 16:30	Coffee Break	
16:30 – 17:30	Prof. Dr. Horia Barbu	Management of Complications in Bone Augmentation
17:30 – 17:45	Discussion	
17:45 – 18:00	Course Evaluation	

**CE to be earned: 8 CE**

**Declaration:**

“The scientific planning committee has reviewed all disclosed financial relationships of speaker in advance of this activity and has implemented procedures to manage any potential or real conflicts of Interest”
